DETAILED ACTION

Amendment

1. Receipt is acknowledged of the after-final amendment filed 16 December 2005, which has been entered by the examiner.

Allowable Subject Matter

2. Claims 1-48 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The best prior art of Han and Webb fail to specifically teach all of the limitations of the newly amended claims. For example, Han and Webb fail to teach the step of determining whether the instrument is a financial credit instrument or a billing instrument, and further, upon that determination, whether the currency amount should be rounded downward to a lower currency amount if the instrument is a financial credit instrument or be rounded upward to a higher currency amount if the instrument is a billing instrument, then placing that rounded money into a third-party target account. Hence the best prior art of record fails to teach the invention as set forth in claims 1-48 and the examiner can find no teaching of the specific monetary contribution determining method and system, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's reasoning in amendment/response filed 16 December 2005, which is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
